56 Dias

This chart shows the 56-day moving average of daily deaths on a logarithmic y-axis (0.001 to 1000) against dates from April 2020 to February 2023. A solid blue vertical line is positioned at the start of the timeline (April 2020). Horizontal lines are drawn at 0.006, 0.03, 0.1, 1, 10, 100, and 1000. A dashed horizontal line is at approximately 20.

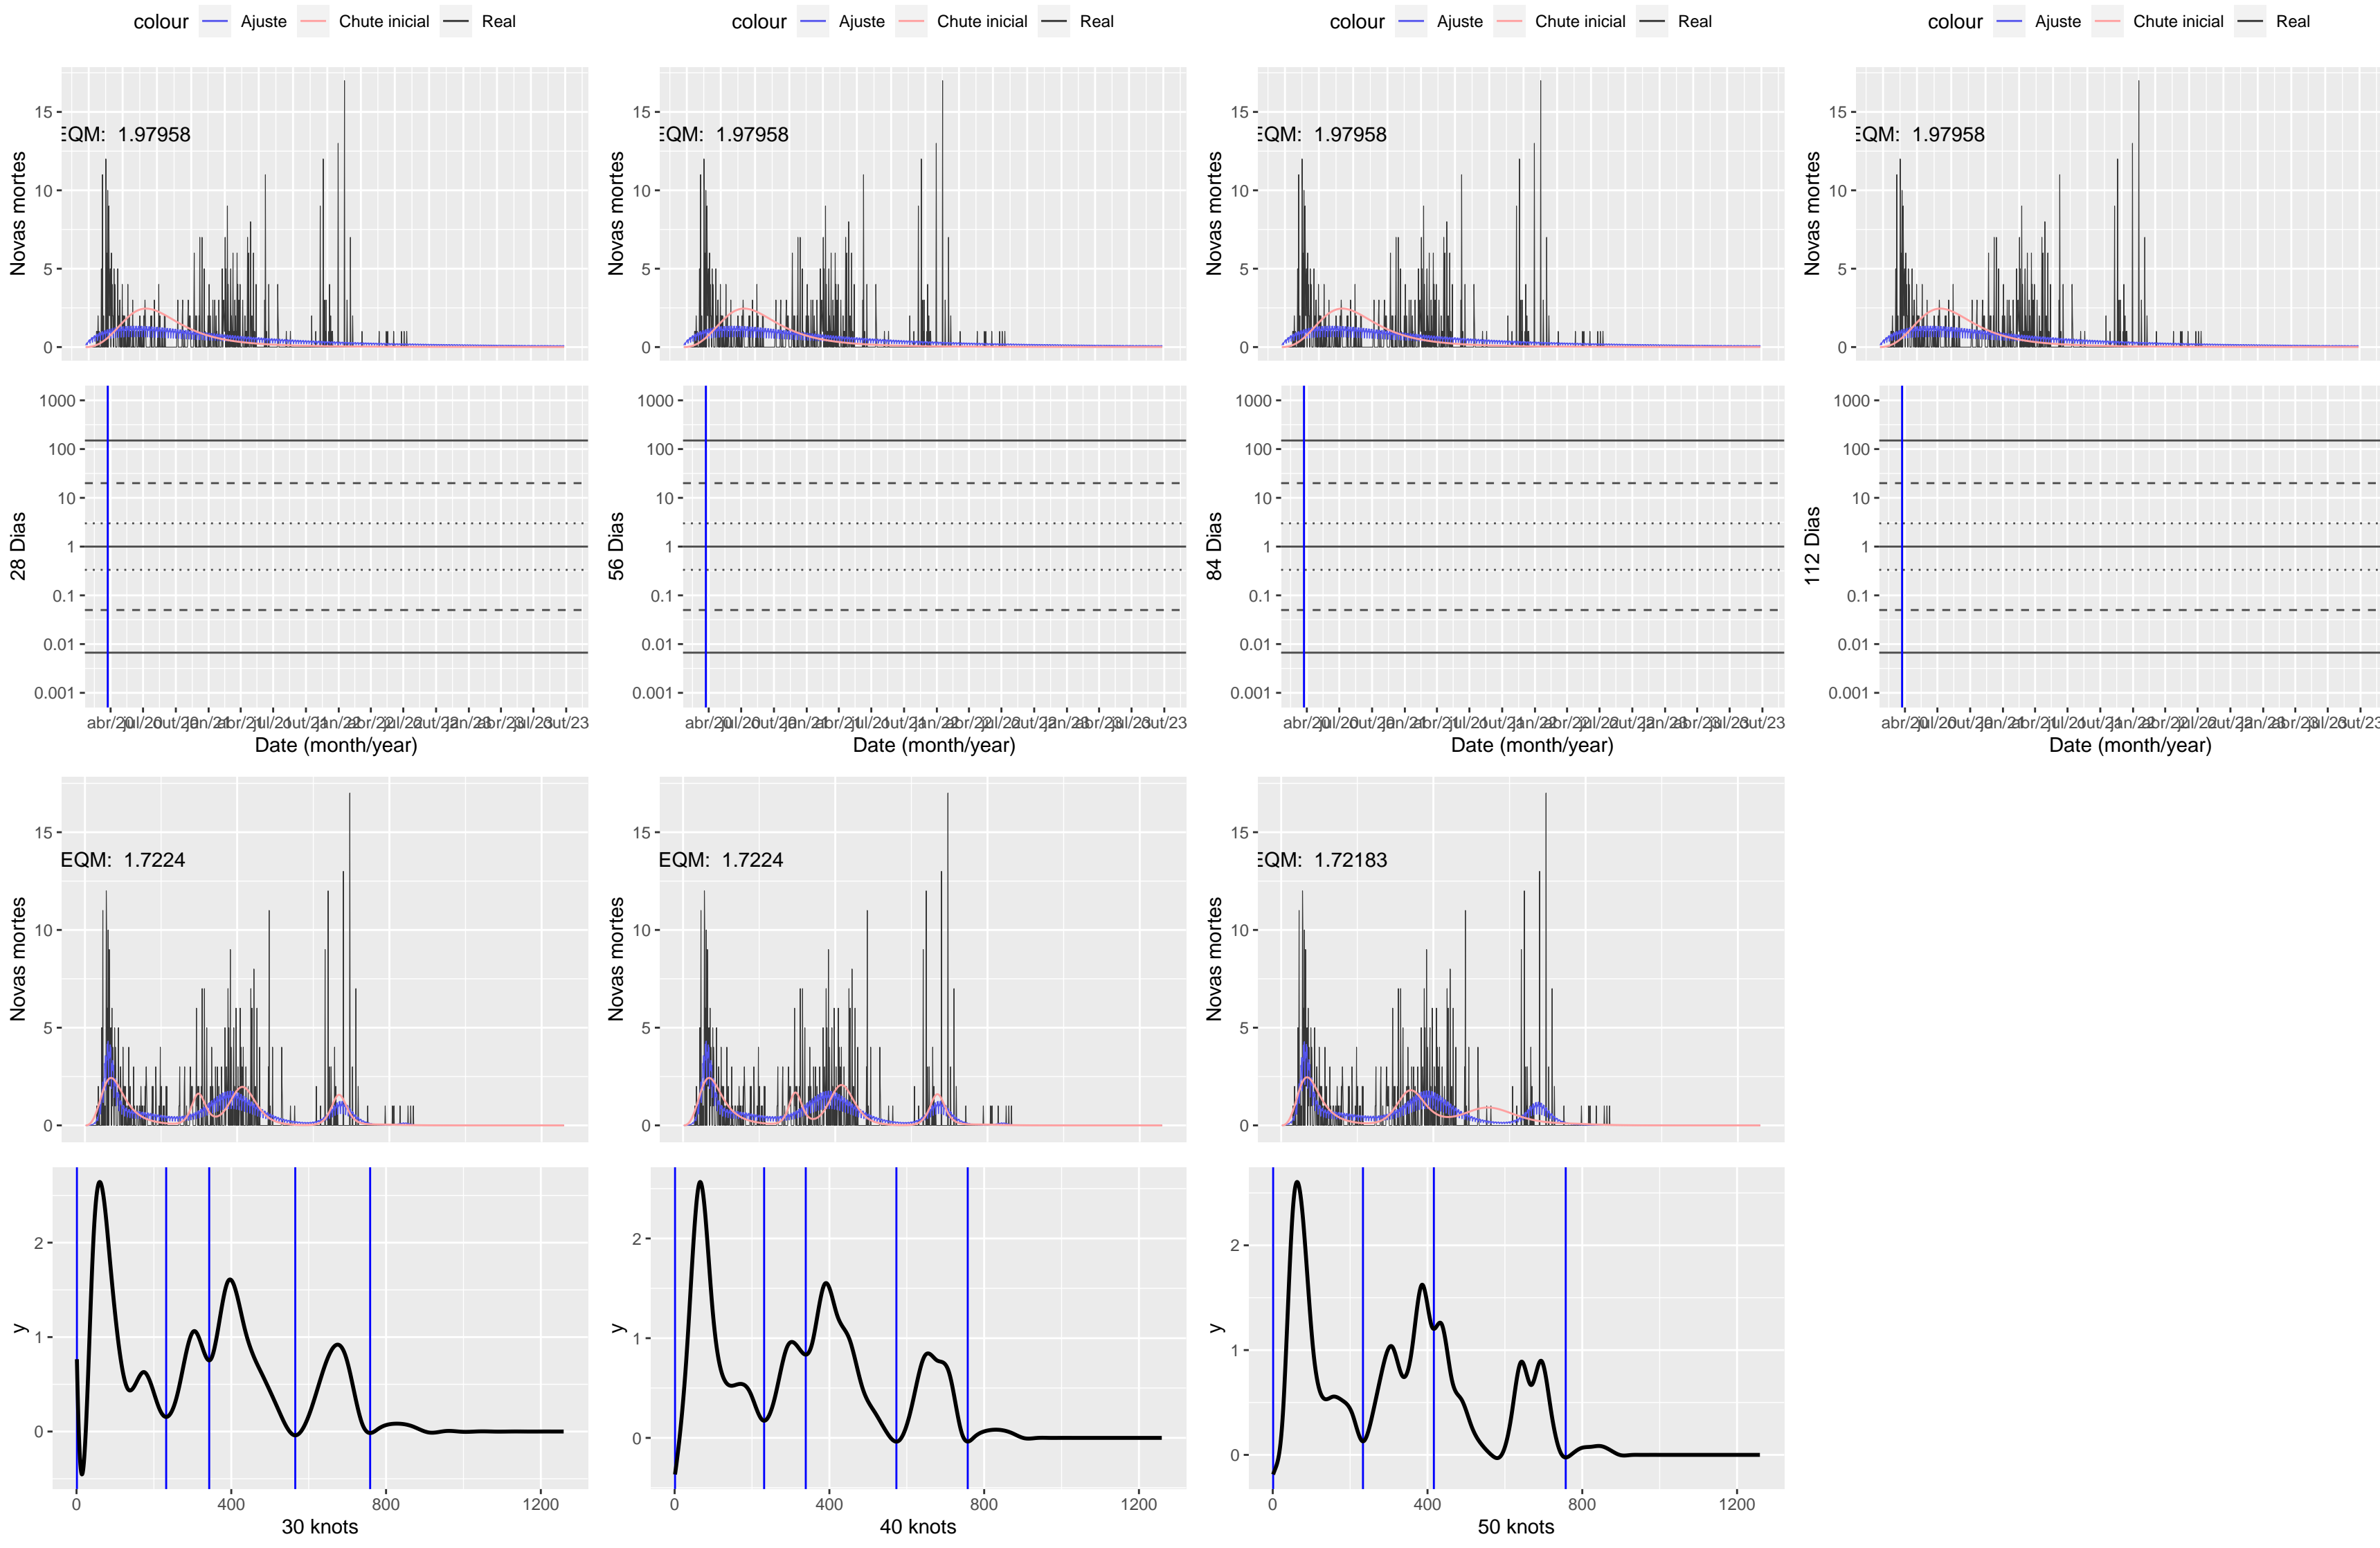

84 Dias

This chart shows the 84-day moving average of daily deaths on a logarithmic y-axis (0.001 to 1000) against dates from April 2020 to February 2023. A solid blue vertical line is positioned at the start of the timeline (April 2020). Horizontal lines are drawn at 0.006, 0.03, 0.1, 1, 10, 100, and 1000. A dashed horizontal line is at approximately 20.

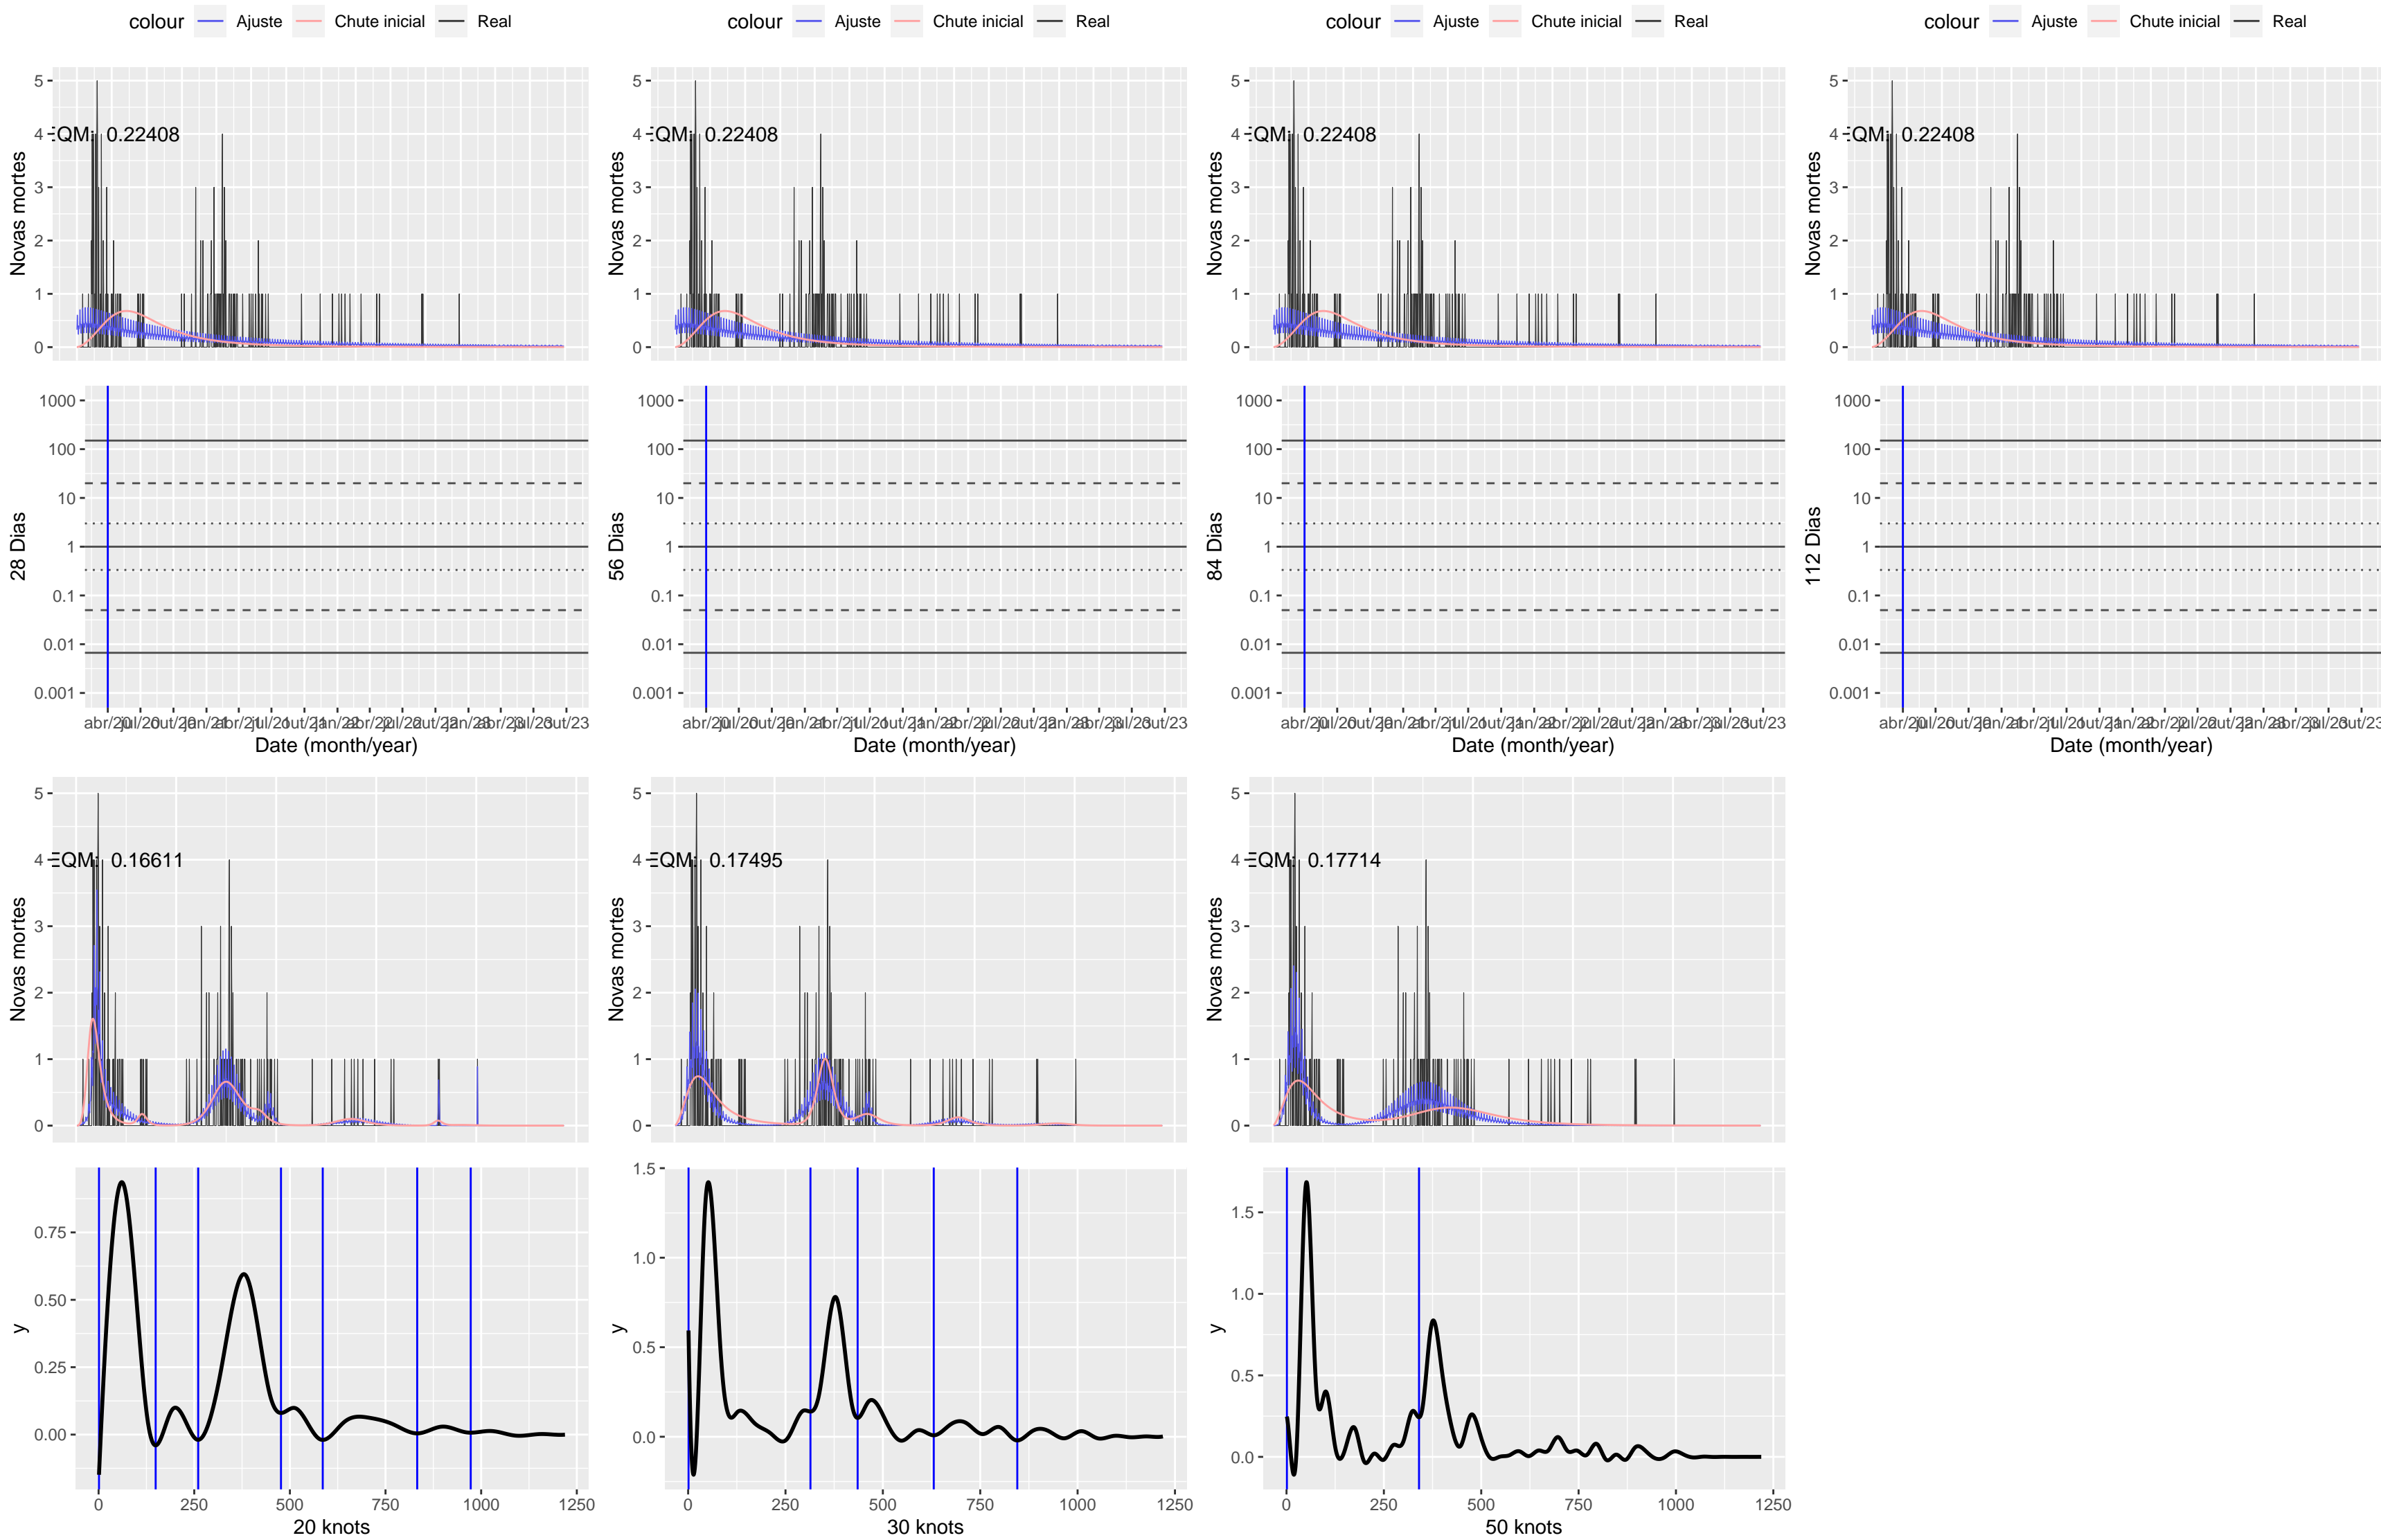

112 Dias

This chart shows the 112-day moving average of daily deaths on a logarithmic y-axis (0.001 to 1000) against dates from April 2020 to February 2023. A solid blue vertical line is positioned at the start of the timeline (April 2020). Horizontal lines are drawn at 0.006, 0.03, 0.1, 1, 10, 100, and 1000. A dashed horizontal line is at approximately 20.
